Laurie:

Discussed this with Chris Zarba last night. It was his addition. Chris is very concerned about the potential pool of candidate reviewers. I said we didn't want a geologist. He recognized what we wanted was a fluvial geomorphologist. In the end, I thought we would get what we need and wanted to make sure this kept moving. We can live with it.

Hi Jeff,

Is it too late to change this? we don't want geologists on the panel. Tom added that by mistake.

Thanks,  
Laurie
